Social Media Policy

Social media (e.g. Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However some games, for example Minecraft or World of Warcraft and video sharing platforms such as You Tube have social media elements to them.

Bebington High Sports College recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and pupils/students are actively encouraged to find creative and positive ways to use social media. There are, however, some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by Bebington High Sports College, its staff, parents, carers and children.

The school respects privacy and understands that staff and pupils/students may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are encompassed within the scope of this policy.

Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

Personal communications which do not refer to or impact upon the school are outside the scope of this policy.

Digital communications with pupils/students are also considered. Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications. It is the duty of the member of staff to immediately report any communication which might be regarded as inappropriate.

Process for Creating New Accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a history department Twitter account, or a "Friends of the school" Facebook page. Anyone wishing to create such an account must present a business case to the School Leadership Team which covers the following points:

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts must be monitored regularly and frequently (preferably 7 days a week, including during holidays). Any comments, queries or complaints made should be referred to the account administrator in the first instance and queries concerning accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.

- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.

- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies. The school permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken.

- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action in accordance with the disciplinary policy.
